

REYNALDO HERNANDEZ LIBREROS

Software Developer

+52 2281-17-25-11 @ abcdatoz.code@gmail.com www.linkedin.com/in/reynaldohernandezlibreros Xalapa, Ver. Mx.

STRENGTHS

- ★ technical skills in programming, design software and architecture
- ★ Mastery of languages programming, databases and Data structures
- ★ Adaptability, ease and desire to learn new technologies and tools
- ★ Team work and collaboration with other engineers and managers project
- ★ Commitment to learning continuous and development professional

SKILLS

Programming Languages

C# Javascript Typescript

Python Kotlin Solidity

DataBases

MS SQL Server MySql

PostgresQL Firebase

Web Technology

HTML CSS Git

SUMMARY

programmer with more than 20 years of experience in software development using different programming languages (C#, Javascript, Typescript, Python and Ruby on Rails).

My experience ranges from developing desktop applications, web applications and rest-apis development. I like to be constantly learning new languages, frameworks, tools and paradigms programming. I am currently learning mobile development with Kotlin language and Fundamentals for developing smart contracts with solidity.

EXPERIENCE

Programmer Analyst

Organo de Fiscalización del Estado de Veracruz

2015 - Present Xalapa, Ver.

- I developed 19 new modules for the SIGMAVER state accounting system
- I supported the installation of the platform (IIS and SQLserver) for more than 300 users of the SIGMAVER, Training and advice to users in the use of SIGMAVER
- I migrated the Sigmaver-Auditor system from its desktop version to a web application
- I developed a user control system
- I currently maintain other systems of ORFIS.
- Stack: C#, Sql Server, AngularJS, React, Bootstrap and Git.

Programmer Analyst

Secretaria de Finanzas del Estado de Veracruz

2014 - 2015 Xalapa, Ver

- I collaborated in the development of a budget allocation system for public works of state agencies
- Which of your achievements match the job you're applying to?

Executive Software Developer

Velasco Asesores S.C.

2002 - 2013 Xalapa, Ver, Mx.

- I worked developing desktop applications, systematizing administrative processes implemented in the following systems: Acquisitions, Vehicle Control, Accounting, Modules for the Payroll system, Office of parties, Public works, Billing and Collection of security services, Budgets and a Billing and Collection System for Water Consumption
- stack: Visual Basic, C#, SQL Server, Ruby on Rails (in a billing system in 2007) and Crystal Reports
